FINANCIAL STATISTICS—CANADIAN GOVERNMENTS

MUNICIPAL - PROVINCIAL - FEDERAL

THIRTIETH YEAR OF PUBLICATION - 1949 ISSUE

FOREWORD

The Institute presents herewith the Thirtieth Issue of *Financial Statistics — Canadian Municipal Governments.* The aim has been to provide figures that are comparable with those given in previous issues of the "Red Book" and that permit comparison between individual municipalities.

The publication is issued in loose-leaf form and when completed will give statistics for all urban municipalities with a population over 400 with the exception of those in the Province of Quebec. Due to the difficulty in gathering some of the required information, complete coverage can only be provided for the larger cities in this Province. Other statistics on Quebec municipalities in the Institute's files will be given out on request. Additionally this annual volume will, as usual, contain statistics for the larger suburban municipalities, as well as counties in Ontario and the Maritimes. Many of the statistics given in this publication have already gone out to subscribers in mimeographed form. This rush-release service has been developed to provide subscribers with statistics for the larger municipalities as the information is received and analyzed in advance of publication of the "Red Book." In addition, subscribers are invited to write to the office of the Institute for the latest information in the Institute files. Toronto subscribers may make inquiries by telephone by calling RAndolph 5444.

The Institute wishes to point out again, that the "standards" given with the statistics are not infallible guides in determining the financial strength or weakness of a municipality. They should be used merely as "indications" of the desirability of more detailed enquiry before arriving at final conclusions. As real property assessments have not followed the short-term swings of the price level, the standards have not been adjusted to such changes. The standards, formulated and still used by Mr. W. L. McKinnon, were adopted by the Institute in 1919 for the purpose of this publication and are still found to be realistic and useful. Obviously, some municipalities may exceed the "standards" considerably and still be perfectly sound, and of course all the factors affecting the financial capacity of the municipality under examination must be kept in mind, including the changes in the price level. It is not so much where a municipality *is* financially, as in what direction it is going.

The Institute wishes to express its appreciation of the excellent co-operation received from municipal treasurers and clerks, school treasurers and the provincial governmental departments concerned with municipal and school statistics in the supplying of these data. It also wishes to thank its subscribers for their continued support.

** No figure for school tax arrears is shown when school taxes are collected by municipality.
¶ As at June 30th of year shown. Quebec school taxes and sinking funds included with municipal figures only in order to make an approximate comparison with cities of other provinces. Schools are administered by separate bodies and the fiscal year of the school district and municipality do not coincide.

(*S*) Surplus. (*D*) Deficit.

(*a*) Standards used for urban municipalities do not apply; therefore figures have not been put on a per capita basis.

(*b*) Area, population and assessment do not include municipalities separate from the county.

(*c*) At assessor's value. This property is liable for taxation by the township, village or town within whose limits it lies.

(*d*) These taxes are levied on the various municipalities within the county and not directly on individuals.

(*e*) As county rates need not be paid until December 20, after which date interest is charged, it frequently happens that a considerable amount of taxes unpaid at December 31 may be paid at a date early in the next year.

(*f*) As far as can be ascertained, none of these debts are for public utilities.

* Information not available.

(1) Excludes guaranteed debentures of $179,380.

(2) Including surplus of $56,087 over actuarial requirements.

(3) Guaranteed debentures of $4,476.

(4) Excludes guaranteed debentures of $82,830.

(5) Guaranteed debentures of $657,207.

(6) Guaranteed debentures of $100,043.

(7) Guaranteed debentures of $3,553.

8) Excludes guaranteed debentures of $880,692.
